

DIAMANT VERTICAL MILL

Vertical Grinding Mill

Suitable for grinding of any kind of grain, peas, coffee, sugar and spices.

A MODERN HIGH-QUALITY MILL WITH OUTSTANDING PERFORMANCE

DIAMANT vertical grinding mill. The original Danish one, manufactured since 1910. 100 years of continuous production experience and continuous product improvement have helped us in making the DIAMANT mills to what they are today: a modern Danish highquality mill with outstanding performance. Available with artificial millstones in sizes 300 mm, 400 mm and 500 mm diameter. With these famous ENGSKO millstones, in emery execution, the DIAMANT is suitable for grinding any kind of grain, peas, coffee, sugar and spices. Other dry products, like chemicals and certain varieties of stones may also be ground, provided they have a suitable grain size.
