

GRINDMASTER 950

Horizontal Stone Grinding Mill

Meeting your needs for high quality, healthy wholemeal flour, grits or high class flour

HEALTHY FLOUR THROUGH OPTIMUM GRINDING

The GRINDMASTER stone mill professionally and simply does the Job through the optimum milling process using proven and wellknown ENGSKO millstones in a sturdy design. The heavy duty mill, aimed for industrial purposes, has a strong frame, hard-wearing shaft and bearings. The adjustment of the stones has an adjustment gear for fine tuning. All in all an industrial mill used for grinding whole grain into grits or healthy and good whole meal flour or for grinding of flour grits into high class flour as the last break after a roller mill.

FINENESS COMPARED TO CAPACITY

INDUSTRIAL OR DECENTRALIZED STONE GRINDING MILLS

The superior thing about the GRINDMASTER stone mill when used In ENGSKO's decentralized flour mills for milling high class flour at a high yield is that the process only uses 4 milling breaks. In this unique combination of 3 break roller milling and 1 break stone milling the stone mill produces a high quality, fine flour from the fine, white grits from the roller mill.

FLOUR READY FOR BAKING

The superior thing about the GRINDMASTER stone gridning mill when used In ENGSKO's decentralized flour mills for milling high class flour at a high yield is that the process only uses 4 milling breaks. In this unique combination of 3 break roller milling and 1 break stone milling the stone mill produces a high quality, fine flour from the fine, white grits from the roller mill.
